PROFESSIONAL PROFILE

Junior Game Programmer with hands-on experience creating multiple video games and prototypes using C++ and C#. Passionate about gameplay programming and a collaborative team member, an active listener, and adaptable in dynamic environments.

EDUCATION

Bachelor's degree in digital interactive Content — September 2022 – June 2026
ENTI - Universitat de Barcelona — Barcelona, Spain

High School Diploma — September 2020 – June 2022
Institut Alt Penedés — Vilafranca del Penedès, Spain

EXPERIENCE

Ubisoft Mobile Barcelona | QC Intern — February 2026 – June 2026

- Reported and thoroughly documented bugs in Jira, capturing detailed steps, context, and evidence for each issue.
- Reviewed and closed QC tickets, keeping the tracking board up to date.
- Validated game balance by testing gameplay against design targets.

PROJECTS

Lyra | Unreal Engine — December 2025 – June 2026

- Designed an extensible **puzzle system** in Blueprints easy to use by designers.
- Built a **camera system** configurable by designers without code intervention.
- Optimized **gameplay systems** to maintain stable 60 fps.
